

Flat, Spill-Resistant Keyboard

Enjoy high reliability and protection from spills where food and drinks are served. Use the easy-to-insert key sheet to customize your key labels. Initial set up is fast and changes are easy to manage.

Fast Thermal Printer

The ER-265 thermal printer is programmable to select receipt or journal printing up to 32 characters per line and accepts 58mm (2 1/4") paper. Prints a 6-line preamble and 6-line postamble receipt message. Optionally print a user defined graphic logo, coupon or advertising message.

15 Department Keys

The SAM4s ER-265's flat, spill-resistant keyboard features 15 programmable departments with 18-character alpha descriptors. Positive or negative preset

departments are available to price and count fast moving items. Departments may be designated 'single item' departments for fast registration of single item sales.

1,000 PLUs

Use the ER-265's price look ups (PLUs) to automatically price and track sales for up to 1,000 items.

Automatic Tax Calculation

The ER-265 manages up to three tax tables. Department and PLUs can be programmed to apply any combination of taxes. If necessary, tax status can be shifted as items are entered, or at the completion of the sale.

Real Time Clock - Hourly Sales Reporting

The ER-265's real time clock automatically prints the time, changes the date and generates a sales by hour report detailing the net sales and customer count for each hour of the day.

Financial and Cash In Drawer Reports

The SAM4s ER-265 gives you an easy-to-read and understand review of your business with a complete analysis of your department sales, function totals and actual drawer totals.

Period-To-Date Reports

The ER-265's period-to-date financial report provides a summary of daily reports for weekly, monthly or yearly analysis.
