

SAM4S

ER-390M

Electronic Cash Register

Maximum Performance

The combination of the Flat Keyboard (90 Programmable Keys) with Price and Modifier Levels allows great flexibility in your sales strategies.

With up to 5,000 PLU's (option; 1,000 standard) and Scanning Capability, the ER390M provides great expandability. You can add peripherals on the two serial ports including a PC, scanner, scale as well as kitchen or slip printers. The ER390M Software Utility allows both programming and reporting to be done via your PC.

The Cancel Sale function, as well as Error Correct, Void and Return Merchandise functions make for fast, easy corrections and still give a high level of Security. The ER390M also offers Promotional Item and Waste Item tracking with reporting.

Fast Food Operations are well catered for with Eat In/ Take Away/ Drive Through functions. The 57mm Thermal Printer with Drop In Paper loading, 2 line LCD operator display and large, heavy duty cash drawer make this an excellent register choice.
